

HAND TOOL CS30L

HAND TOOL WITH INTERCHANGEABLE DIES

To crimp preinsulated and open barrel terminals

The hand tool with interchangeable dies CS30L is designed for intensive industrial applications. The linear cinematic of the dies and the double guidance system ensure homogeneous and symmetrical of the forces. Dies for opened and preinsulated terminals are delivered with positioning stopper.

Ergonomic design of handles and long handle provide a comfortable and flexibility of use. All these elements guarantee a high quality of crimping.

FEATURES

- Exchangeable crimping dies
- Capacity from 0.03 to 16 mm²
- Linear displacement of the dies
- Optimal force distribution due to double-guidance-system
- Positioning stopper for preinsulated and open barrel terminals
- Reduce of force needed thanks to long handle
- Comfortable use thanks to long handle
- RoHS compliant (2002/95/EG)
- Length: 270 mm
- Weight: 0,720 kg

Part Number: CS30L
Item code: 7500013
